## **INTRANSA INC.**

**B Chandrashekar**

**Company:** Intransa Inc.

**SDC:** Pune, India.

**Major Contracts:**

Wipro  
Spectramind and  
Larsen & Toubro

**PR Agency:** EXL  
Public Relations

**Aggrement:** Microsoft WHQL Certification; Sun Microsystems' "Solaris Ready" Certification and Sun iForce Partnership.

### **Area of Operation**

Intransa is one of the leading global companies in IP storage area networks (SAN) solutions, providing scalable and affordable SAN solutions leveraging Ethernet infrastructure.

### **Plans and Strategies**

Intransa is planning to extend and expand its system and software feature offerings, already having announced a family of IP3000, 5000, and 7000 platforms. During 2005, the company will be announcing additional solution deployments with leading end-users across India and the Asian market.

### **Product Range**

The company offers IP-SAN storage systems—IP3000, IP5500, and IP7500. The self contained and fully integrated IP7500 rack unit is an all-inclusive, plug-and-play ready IP SAN solution, that is highly scalable (up to 32TB), complete with high availability features with no single point of failure and advanced software features such as *Snapshots and Rollback*.
